Cost : £750 +VAT per delegate

# Workday Adaptive Planning – Fast Start Course - 1 Day

This course is designed for individuals who wish to take advantage of the value-added benefits of their Workday software. The course explains the structures of the environment and how to use it in an efficient manner to achieve maximum benefit.

It is ideal for those who will be responsible for authoring dashboards and reporting content, alongside administrative functions.

It provides a springboard for those looking to move on to configuring their own Workday Adaptive Planning applications.

**Overview:** Through a series of lectures, demonstrations and hands-on exercises, students will learn how a Workday Adaptive Planning application is structured; how to access data stored within the model; how to create versions; how to enter data; and how to build reports and dashboards.

**Prerequisites:** Intermediate experience with Excel spreadsheets and an understanding of business metrics and drivers.

**Performance Goals:** Upon successful completion of this course, students will be able to:

- Understand the structure of a Workday Adaptive Planning application
- Create plan versions
- Manage dimensions
- Understand the different sheets
- Author Matrix reports, OfficeConnect reports and dashboards.

# About ICit

Established in 1999, ICit is an experienced Workday business partner specialising in business performance management and business intelligence solutions.
